

CJ Biomonitoring, LLC is a certified small, woman-owned environmental consulting firm serving the greater Orange, Los Angeles, and Santa Barbara Counties. Established in 2017, CJ Biomonitoring has been providing clients with solutions-based expertise to complex environmental issues involving the California Environmental Quality Act, National Environmental Quality Act, and other local and state regulations.

CJ Biomonitoring can provide biologists in a wide array of expertise due to a large network of independent biologists and environmental professionals we are able to pull from. These respected professionals have worked throughout Southern and Central California and their cumulative expertise spans decades. The clientele ranges from non-profit organizations, city regulatory agencies, private landowners and developers, larger environmental consulting firms, and utility companies.

### Services Provided

- ✦ Biological, construction, & compliance monitoring
- ✦ Worker Environmental Awareness Program (WEAP) documents
- ✦ Focused nesting bird surveys & nest monitoring
- ✦ Permit & mitigation compliance
- ✦ Wildlife movement studies
- ✦ General plant, wildlife, and habitat assessments
- ✦ Special-status species habitat assessments
- ✦ Habitat restoration plan preparation and implementation
- ✦ GPS mapping for large and small projects
- ✦ Complete project management

CJ Biomonitoring is a one-stop shop for all your environmental compliance needs whether they are big or small. A unique benefit of CJ Biomonitoring is the access to the owner and principal biologist, Courtney McCammon. With full and open communication directly to senior biological expertise, we can ensure that your project will get the attentiveness it deserves.

We offer personal attentiveness, responsiveness, efficiency, and flexibility. We do this while providing top quality environmental compliance deliverables that clients expect from larger consulting firms.
